www.ebcsystems.com

Standard features include:

1. Web Browser Interface for tenant override access available from any PC with internet or intranet connection.
2. Activation of an override after normal business hours today at any time during business hours.
3. Scheduling an override in the future by date and time
4. Confirmation of override initiation
5. Viewing active overrides
6. Canceling overrides at any time.

Interoperability

Through the “TENANT EXECUTIVE III”®, the “TenantACCESS.net”® application can implement overrides in systems using the following components or communication protocols:

LonMark
BACnet
Honeywell
Invensys
Alerton

Opto22
Teletrol Systems
Allen-Bradley
American Auto-Matrix

Custom interfaces to third party Building Management Systems (BMS) and/or software are also possible through custom hardware driver development, OPC, COM, Active X or database file manipulation.

**Contact EBC for further details on the use of the
“TenantACCESS.NET”® with your existing BMS!**
